- First line of business was to add changes to the minutes from June 8, wording in regards to the commission's role of supporting the coalition was changed from *advice would advisory to ....would be advisory.*
- 
- Dr. Dundas discussed the fluoride varnish initiative and gave some input into the challenges facing the Coalition. He described the extensive effort the Coalition made to promote the varnishing event, but noted that the event only attracted 10 people.
- 
- Don apologized for not getting the discussion paper he had written emailed out to the group in advance and did not have copies. This limited the planned discussion of ideas, but a lively if inconclusive discussion did follow.. Don's paper will be distributed before the next meeting.
- 
- M. L. Albert read an opinion piece she wrote on community water fluoridation and asked that it be included with the minutes.
- 
- The next meeting date and time is scheduled for August 3<sup>th</sup>, at 5:30 PM at the town offices.

Respectfully submitted
